

Workplace Banking

Together, we can partner to assist you and your employees financial needs by offering an array of financial benefits. Workplace Banking is an easy way to build a financial benefits package for your employees by offering the convenience of direct deposit of their payroll. It's easy to get started, we'll handle the employee information by providing on-site meetings to inform your existing employees of the program and even open the accounts right there, without an added trip to the bank. We will also visit your business periodically to sign up new employees and offer financial planning sessions.

Benefits for your employees

Employees can choose the checking account to fit their needs along with direct deposit and 24/7 anytime access by phone, online or ATM. Employees get money saving features such as their first order of checks are free, Free Safe Deposit box for the first year plus many savings options to accommodate their budget.

Benefits for your business

When you offer a direct deposit program, it makes payroll processing easier for your employees and your business. We make it easy for new hires and existing employees to sign up at any branch location or just give us a call to set up an appointment for us to visit your business.
